

showcased when she was arrested in March of 2016, as part of the Muscular Dystrophy Association's Lock-Up event to help combat neuromuscular disease. The money that Ms. Thompson raised for bail helped two local children attend an MDA summer camp that gives children with muscle-debilitating diseases the best week of the year.

Ms. Thompson was also instrumental in expanding WSAV's news coverage from 17 hours per week to 30 hours per week and creating a 10 p.m. program reaching a much broader audience.

I am proud to recognize her today for all of her hard work and dedication to southeast Georgia. I wish her the best of luck in the future.

REJECT ATTEMPTS TO REPEAL THE ACA

(Mr. SCHRADER asked and was given permission to address the House for 1 minute.)

Mr. SCHRADER. Mr. Speaker, in a bizarre rant yesterday, President-elect Donald Trump said he would be "the greatest jobs producer that God ever created." Mr. Trump might need to rethink that statement, given his top priority is to repeal the Affordable Care Act.

Make no mistake, Mr. Speaker, while the Republicans haven't given us any details about an ACA replacement policy at all, we know exactly what will happen if they repeal it: millions of jobs will be lost.

Since the ACA was passed in March 2010, the U.S. economy has added more than 15 million private sector jobs and the unemployment rate has been cut in half. In fact, the longest streak in private sector job growth began the month the ACA was passed. Now, folks on the other side of the aisle want to risk all of that going away by repealing the law.

A recent study has found that repealing the ACA would kill 2.6 million jobs in just 1 year, including 45,000 in my home State of Oregon. Thirty million Americans will lose access to health care, and \$350 billion gets added to our budget deficit.

Mr. Speaker, we can't afford the reckless ACA repeal policy. I urge my colleagues to reject attempts to repeal the law and focus on ways we can fix and improve our healthcare system while creating jobs.

REPEALING ACA WITHOUT A REPLACEMENT IS DANGEROUS

(Ms. BARRAGAN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BARRAGAN. Mr. Speaker, today, I rise because I offered an amendment to the budget resolution bill that is going to be up for a vote tomorrow. The amendment that I offered was a statement of policy that repealing the Affordable Care Act without a replace-

ment is dangerous and irresponsible. This is a bipartisan sentiment.

Senator LISA MURKOWSKI, a Republican from Alaska, stated: "I have great concerns that we inject a level of great uncertainty into an already uncertain environment if we don't give people a clear indication as to what will come once we repeal."

I don't support a repeal, but people in my district cannot afford to go without health care in the 44th Congressional District.

I urge my colleagues to think about this, to think and to listen to their Republican colleagues. We need to see a replacement plan.

FIVE IMPACTS OF THE ACA REPEAL

(Ms. JAYAPAL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JAYAPAL. Mr. Speaker, the immoral effort to take away health care from millions of working families across the country has begun.

Thanks to the Affordable Care Act, thousands of families in my home State of Washington have been able to get quality health care, and now the Republican majority is set to strip away that healthcare coverage from those struggling to make ends meet.

If they succeed, three quarters of a million Washingtonians will lose their health care; 55,000 young people in our State will be kicked off their parents' healthcare plans; being a woman, once again, becomes a preexisting condition where women would again have to pay out of pocket for basic, preventive screenings and birth control; nearly 4 million Washingtonians, covered by their employers, would see their costs increase and coverage decline; and 50,000 Washingtonians who gained health care through Medicaid expansion will lose it.

Mr. Speaker, health care is a fundamental right and not a privilege. Instead of rolling back the progress we have made, we should be strengthening and expanding health care to cover all who live in our Nation.

DREAMER INFORMATION PROTECTIONS

(Mr. O'ROURKE asked and was given permission to address the House for 1 minute.)

Mr. O'ROURKE. Mr. Speaker, this Sunday at 1:30 p.m. in El Paso, Texas, hundreds of my fellow citizens will come out to San Jacinto Plaza to join us in celebrating, supporting, and defending those DREAMers who, across this country, are 700,000 strong, who were brought here at a young age are now contributing in, living in our communities, going to school, serving in the military, and helping to create jobs and grow our economy.

I am also introducing tomorrow the DREAMer Information Protection Act

to protect those DREAMers who voluntarily came forward out of the shadows to give their personal information, their names, telephone numbers, and addresses to the Federal Government. I want to protect them and make sure that same government doesn't turn around and use that information to deport them, as the incoming administration has promised to end the executive DACA action and potentially deport those DREAMers on who this country is depending, not just for our economic success but our growth and success as a country that has always gained from immigrants who contribute to the American way of life.

SUPPORTING BETSY DEVOS' NOMINATION

(Mr. BISHOP of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BISHOP of Michigan. Mr. Speaker, I rise today in strong support of a true leader and friend, Betsy DeVos, for the nomination of Secretary of Education.

By far and away, Betsy DeVos is the ideal candidate to guide our Nation's education policies. For three decades, she has been focused on making sure all of our Nation's children have access to quality education, particularly for the disenfranchised and those in real need.

The Associated Press recently ran a piece highlighting West Michigan Aviation Academy and the tremendous difference the school is making in the lives of the children in Michigan. Betsy DeVos had her hand in that process, as she has in so many of the other schools across western Michigan.

Mr. Speaker, being from Michigan myself, I have seen firsthand what Betsy DeVos has done for education in Michigan. She understands the important role of public schools in the K-12 system, but also believes that competition, school choice, and parental control will help drive success in all schools to ensure that all children are receiving the best possible education, no matter their circumstances.

I hope to work with my friends on the other side of the Capitol. And I hope, during this time before the Senate committee considers Ms. DeVos' nomination, that the rest of the Nation will hear of the great things that Betsy DeVos has done and see how qualified she is for this job.

MICHIGANDERS CONCERNED OVER REPEAL OF ACA

(Mrs. DINGELL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. DINGELL. Mr. Speaker, last weekend, I held a roundtable discussion in my district with healthcare providers, hospitals, doctors, nurses, clinics, labor leaders, and working families
